EDUCATION

Center for Development of Advanced Computing (C-DAC)

Post Graduate Diploma in Advanced Computing (PG-DAC) - GPA: 72%

Bangalore, India

Feb 2025 - Aug 2025

Dr. Harisingh Gour Central University

Sagar, India

Master of Computer Applications (MCA) - CGPA: 8.4/10

July 2022 - Sep 2024

Gyanveer Institute of Management and Science

Sagar, India

Bachelor of Computer Applications (BCA) - GPA: 75.04%

July 2019 - July 2022

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript, SQL, C++, Shell Scripting

Backend Technologies: Node.js, Next.js, Express.js, Java Spring Boot, RESTful APIs, Microservices

Frontend Technologies: ReactJS, Redux, HTML5, CSS3, Bootstrap, Responsive Design

Databases: MongoDB, MySQL, PostgreSQL

Cloud & DevOps: AWS, Docker, Linux, Git/GitHub, Maven, CI/CD Pipelines

Tools & Testing: Postman, JUnit, VS Code, IntelliJ IDEA, Debugging, API Testing

WORK EXPERIENCE

Web Development Intern

Aptech IT Solution, Sagar, India

Jan 2022 - May 2022

- Developed responsive web pages using HTML5, CSS3, and JavaScript following best practices
- Collaborated with senior developers to implement new features in existing web applications, writing clean, maintainable code following industry best practices
- Participated in daily code reviews and sprint planning sessions, gaining exposure to Agile development methodology and version control using Git

PROJECTS

- **AlumniEcho: University Alumni Connect Platform** (Node.js, React, Redux, MongoDB, Docker)
 - Architected microservices-based alumni networking platform with 15+ secure RESTful APIs using JWT authentication
 - Built scalable backend services with modular architecture and integrated AI-powered chatbot using OpenAI API for automated query responses[GitHub](#) — [Demo](#)
- **TicketForge: Ticketing System** (React, Java Spring Boot, PostgreSQL)
 - Developed full-stack ticketing system with JWT authentication and role-based access control for 3 user types
 - Engineered RESTful APIs for ticket lifecycle management with comment threading, file attachments, and priority-based workflow automation
 - Implemented email notifications, search/filter capabilities, and 5-star rating mechanism[GitHub](#)
- **Gupshup: Real-Time Chat Application** (React, Node.js, Express.js, MongoDB, Socket.io, AWS)
 - Built scalable real-time messaging platform supporting 200+ concurrent users with instant message delivery
 - Designed 8 RESTful API endpoints for user authentication, message history, and room management
 - Optimized MongoDB queries with proper indexing, improving message retrieval speed by 12%[GitHub](#)

CERTIFICATIONS

- Oracle Cloud Infrastructure AI Foundations Associate — Oracle — 2025
- McKinsey Forward Learning Program — McKinsey & Company — 2025
- Data Structures and Algorithms Specialization — Udemy — 2023
- Aptech Certified Professional in Web Development — Aptech Learning — 2022
